THE

TWENTIETH REPORT

OF THE

COMMISSIONERS OF NATIONAL EDUCATION IN IRELAND.

(FOR THE YEAR 1853.)

TO HIS EXCELLENCY EDWARD GRANVILLE, EARL OF ST. GERMANS, C.B.,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

May it please your Excellency,

I.—1. We, the Commissioners of National Education in Ireland, beg leave to submit to your Excellency this our Twentieth Report.

II.—2. On the 31st of December, 1852, we had 4,875 schools in operation, which were attended by 544,604 children. At the close of the year 1853, the number of schools in operation was 5,023, attended by 556,478; showing an increase in the schools in operation of 148; and an increase in the attendance for the year 1853, as compared with the year 1852, of 11,874 children. Number of schools in operation.

3. Besides those 5,023 schools, there are 42 upon our lists, although not yet in operation, towards which, at various times, we have made building grants; of these grants, 16 (involving liabilities to the extent of £2,655 6*s.* 0*d.*) were made during the year 1853. When the buildings for these 42 schools shall have been completed, they will afford accommodation to 4,016 additional pupils. Building grants.

4. The number of schools struck off during the year 1853, was 106,* 10 schools were suspended, which, however, may hereafter be re-opened; and 218 schools were added to the list. The entire number of schools on our rolls, on the 31st December, 1853, was 5,075, including those in operation, those suspended, and those towards the building of which we have promised aid. Total number of schools.

* Of the 106 schools struck off the roll during the last year, 75 had been previously in operation. To the remaining 31 schools grants for building had from time to time been awarded, which grants were cancelled for various reasons during the year 1853. The reasons in each case for their being so removed from our rolls are given in the Appendix.

Increase in the number of schools.

5. The following Table shows the number of National Schools, together with the number of children in attendance therein, as specified in our several Reports, to the 31st of December, 1853. From this Return it will be seen that there has been a steady increase in the attendance at the National Schools every year, except in 1847 and 1849, in which the decrease is attributable to the causes adverted to in our Reports for those years.

Average number on the rolls of each school.

6. The total number in 1853, of 556,478 children, in the 5,023 schools in operation, gives an average, on the rolls, of 110·78 to each school.

Average daily attendance of pupils.

7. The subjoined Return shows that the average daily attendance of pupils for the half-year ended the 30th of September, 1853, was 271,364, and that the number on the rolls for the same period was, as we have already stated, 550,631.

TABLE showing the total number of Schools in operation in each Province, on the 31st December, 1853, with the number of Children on the Rolls for the half-year ending 30th September, 1853; also the average daily attendance for the same period.

PROVINCE.	No. of Schools in operation on the 31st Dec., 1853.	No. on the Rolls on 30th September, 1853.	Average daily attendance for the half-year ending 30th Sept., 1853.

Connaught,	698	76,115	33,777
Total,	5,023	550,631*	271,364*

* There was, in addition to these numbers, an attendance of 5,847 children, with a daily average of 3,367 in schools to which salaries were granted during the three months from the 30th September to the 31st December, 1853, making the total attendance on the rolls 556,478, (as stated in second paragraph of this report,) with an average daily attendance of 274,731.

8. The average daily attendance of pupils for the half-year, ending the 30th of September, 1853, as compared with that of the corresponding half-year, for 1852, exhibits a decrease of 7,844. This diminution may be partly accounted for by the fact, that there has been a considerable reduction in the number of children in the Workhouse Schools, in which the proportion of children in daily attendance to the total number on the rolls is necessarily greater than it is in the other schools, from which the children have a greater liberty of absenting themselves.*

Decrease in the average daily attendance for the half-year ending the 30th September, 1853

9. The following summary exhibits the number of National Schools, in each province, on the 31st of December, 1853, and the number of children on the rolls, for the half-year, ended the 30th September, 1853, distinguishing those schools which were in operation, those to which we have promised building grants, and those suspended.

* See Tabular Returns of the attendance in the Workhouse Schools in the Appendix.

† There was, in addition to this number, an attendance of 5,847 children in schools to which salaries were granted during the three months, from the 30th September to the 31st December, 1853, making the total attendance on the rolls 556,478, being an average of 110·78 children per school.

Total Protestants of all persuasions, clerical and lay, 35; total Roman Catholic, clerical and lay, 132. Of the remaining 19 cases 13 were joint applications from persons of different religious denominations, and 6 were Model Schools, of which we are the patrons.

Amount of Building Grants to new Schools in 1853.

12. It will be seen from the foregoing tables, that we have made grants to build and furnish 42 schools, 16 of which are grants for the year 1853. Some of these schools are in progress of building, and will be soon completed: and towards the erection of a few no steps have yet been taken. The outstanding grants made in various years to these 42 schools amount to £4,621 1*s.* 10*d.* In addition to the 16 new building cases, we awarded grants of salaries and books to 202 new schools, making, in 1853, a total of 218 new cases.

Number of schools brought into operation in 1853, towards the erection of which the Commissioners had made grants.

13. There were 18 schools opened during the year, towards the erection of which we had made grants. These are included in the 5,023 schools in operation, on the 31st December, 1853, and their names will be found inserted in a list in the Appendix.

Total number of vested and non-vested schools.

III.—14. At the termination of the year 1853, we had on our list, vested either in Trustees, or in our Board, 1,092 school-houses, containing 1,598 rooms, accommodating distinct schools. The number of non-vested schools was 3,467, several of which, as in many cases of vested schools, are held under the same roof, though in separate rooms. There are, in addition, 9 school-houses about to be vested in the Board, the leases of which are in course of execution. These 9 school-houses will contain 10 distinct apartments.

15. The number of schools vested in Trustees, on the 31st December, was 996. In addition, 511 (including 140 assigned) were vested in the Commissioners, in their corporate capacity. There are also 10 schools, of which the leases are not yet executed, towards which the Commissioners have made grants for building and furnishing. There were also 91 schools, for which the Commissioners held Bonds for the observance of our rules.

Repairs of school-houses vested in the Board.

16. During the year 1853, we made grants towards the repairs of schools vested in us, amounting to £833.

Applications for grants to new schools.

IV.—17. The number of applications for grants to new schools in the year 1853, was 335. To 218 of these we promised the requisite assistance, either for building, or for salaries and books. The remaining 117 applications were rejected for various reasons, of which official records are kept.

Total amount of salaries, gratuities, &c., paid in 1853.

V.—18. The total amount of salaries, premiums, and gratuities, paid in 1853 to the principal literary Teachers of National Schools, Assistants, Paid Monitors, Workmistresses, Teachers of Agricultural Schools, Evening Schools, Workhouse Schools,

and Organizing Teachers, was £90,704 1*s.* 5*d.*, being an increase over the amount paid in the year 1852, of £7,739 3*s.* 9*d.*

Scale of Salaries paid to Teachers.

19. The scale of salaries paid to our Teachers in their several classes and divisions, from the 1st of April, 1852, is given in the subjoined table :—

		Males.	Females.

Paid Monitors.

20. The amount paid to Monitors for the year 1853, in accordance with the following scale, was £2,038 1*s.* 8*d.*; and the number of Paid Monitors at the close of the year was 416, of which two-thirds were males, and one-third females.

21. The arrangements for increasing the number and salaries of our Paid Monitors have not yet been made, but will be detailed in our next Report.

Amount of the sales of books to National Schools.

VI.—22. The amount received for books sold at reduced prices to National Schools, in the year 1852, was £6,467 1*s.* 5*d.*; in 1853, the amount received was £6,439 1*s.* 9*d.* The number of orders for books for National Schools received in 1853, was 6,111, making the average amount of each order £1 1*s.* 1*d.*

Value of Free Stock.

23. The estimated value of the grants of books given as Free Stock, in 1853, was £6,443 14*s.* 5*d.* The number of grants was 1,993—being an average to each school of £3 4*s.* 8*d.*

Sale of National School Books in Great Britain and Ireland, and in the Colonies.

24. We explained in our last report the nature of the arrangement adopted by the Lords of Her Majesty's Treasury, for supplying the Public and Poor Schools not connected with our Board with the National School Books, and stated that this arrangement came into operation on the 4th of July, 1853, from which date we ceased to sell books to any but National Schools. For the first six months of the year 1853, the sales to the Committee of Privy Council on Education amounted to £1,411 10*s.* 2*d.*; to schools for the poor in Great Britain and Ireland, not connected with our Board, and not receiving aid from it, or the Committee of Privy Council, £618 14*s.* 5*d.*; to schools of a similar description in the colonies, £1,257 9*s.*; to the Workhouse Schools in England, £69 12*s.*; to Her Majesty's Stationery Office, for the use of prisoners and convicts, £51 7*s.* 8*d.*; and to the public generally, through our agents, £2,418 12*s.* 9*d.* The total amount of these sales, therefore, for the six months, was £5,827 6*s.*

25. Had the old arrangement for supplying our books to the

public continued in force, and had the sales for the second half year of 1853 been in a like proportion to the first, the total amount would have been nearly £12,000, which would have been £3,000 more than the amount received for year 1852, as stated in our last Report. We have much pleasure in announcing that the circulation of our books is likely to be greatly extended under the new plan devised by the Treasury; and that, in consequence of the low rates at which the last contracts for printing and binding our books were taken by Her Majesty's Stationery Office, we have been enabled to make a considerable reduction in the price of our books to the National Schools.

Number and amount of premiums for the encouragement of cleanliness.

VII.—26. The sum expended in the year 1853, in premiums for the encouragement of cleanliness and good order, amounted to £960, which was distributed according to the following scale, viz., in each district:—

	£	s.	d.		£	s.	d.
1 Premium of	4	0	0	. . . . .	4	0	0

Total, . .	624	509	396	1,529

Number of Teachers trained in 1853.

IX.—29. We trained, during the year, and supported at the public expense, 281 National Teachers, of whom 193 were males, and 88 were females. We also trained 25 Teachers not connected with National Schools, who supported themselves during their attendance at the Model Schools, making the total number of Teachers trained in 1853, 306. Of the 281 Teachers of National Schools trained during the year, 18 were of the Established Church, 32 Presbyterians, 3 other Protestant Dissenters, and 228 Roman Catholics. The total number of male and female Teachers trained from the commencement of our proceedings to the 31st of December, 1853, is 3,701. We do not include in this latter number those Teachers who, at the time of their training, were unconnected with National Schools.

30. We subjoin two Tabular Returns—No. 1 showing the

classification of the National Teachers trained during the year 1853, arranged under its respective divisions. No. 2 exhibits to what class the Teachers belonged at the commencement of their course of training, and at its termination.

Special Inspection of Workhouse Schools.

32. We have had under further consideration, during the past year, the state of the Workhouse Schools under our Board. Before coming to a final decision on the alterations in their management which might appear to us best calculated to increase their efficiency and usefulness, we deemed it advisable to authorize Mr. J. W. Kavanagh, one of our Head Inspectors, to visit and to furnish a Special Report on each School; also, to draw up a General Report upon their condition, and to make such suggestions for their improvement as he might consider desirable. That gentleman having occupied several months in the execution of the important duties confided to him, has laid before us his Report, containing a large amount of valuable matter, which shall receive our early attention.

Workhouse Schools.

X.—33. At the close of the year 1852 we had 133 Workhouse Schools under our Board. On the 31st of December, 1853, the number was 141, being an increase of 8 as compared with the preceding year. Of these schools, 29 are in Ulster, 50 in Munster, 34 in Leinster, and 28 in Connaught. The number of Poor Law Unions, at the above date, was 163. There are, therefore, only 22 Workhouse Schools not connected with our Board.

34. The number of children on the rolls, in 141 Workhouse Schools, for the half year ending 30th September, 1853, was 53,972, and the average daily attendance, 36,980.

Gratuities to Workhouse Teachers.

35. The only assistance we grant, at present, to Workhouse Schools, consists of books at reduced prices; of free stock; gratuities to the Teachers, varying in amount from £3 to £6 yearly, and the advantages of periodical inspection. The total amount of gratuities to these schools in 1853 was £400 10*s.*, awarded in accordance with the following scale:—

Male Teachers.

West Dublin Model Schools.

XI.—36. The West Dublin Model Schools, which are under our exclusive management, continue to be satisfactorily conducted. The number of children on the rolls, for *the week ended* the 30th of September, 1853, was 396; the average daily attendance, 336.

District Model Schools.

XII.—37. We refer to the Reports of our Head Inspectors, which will be found in the Appendix on the condition of the District Model Schools. There are now nine in operation. The number of children on the rolls of these schools, for the *half year ended* the 30th of September, 1853, was 3,092, and the average daily attendance for the same period, 1,701.

In the following table the total number on the rolls is divided into males, females, and infants.

39. It appears from the foregoing Returns, that for *the week ended* the 31st of December last the total number of children on the rolls of our District Model Schools was 2,029; of which 358 were of the Established Church, 1,259 Roman Catholics, 351 Presbyterians, and 61 were Protestant Dissenters.

Additional District Model Schools.

40. The District Model Schools intended to be established at Kilkenny, Waterford, and Limerick, are in progress of erection. A Model Farm upon an extensive scale is to be connected with the Model Literary School at Limerick. The plans for the agricultural buildings are in an advanced state of preparation. We have procured, since the publication of our last Report, an eligible site in Belfast for a District Model School, which will afford accommodation to 800 children, males, females, and infants. It is situated in a populous locality, adjacent to

several of the largest flax-spinning and other mills. A few of the most eminent proprietors of these mills have subscribed upwards of £800 towards the erection of the school buildings, and have promised to give the Institution, when opened, their warmest support. At the request of many friends of agricultural education in Belfast and its vicinity, we have resolved that an Agricultural Department shall be connected with the Literary District Model School, as at Limerick. Difficulties were at first experienced in getting a sufficient quantity of land, in a convenient situation, and on reasonable terms. These have been overcome. We have received an offer (which we have signified our intention to accept) of 100 acres, about two miles from the centre of the town, on a satisfactory lease, and at a moderate rent. After the execution of the leases no time will be lost in completing the plans for the Farm Buildings. We have abandoned our intention, for the present, of erecting a District Model School in Dublin, having been unable to bring our negotiations for a site which had been offered, to a satisfactory conclusion.

Inchicore Railway Model School.

41. During the present year we have undertaken to erect a Model School at Inchicore, near Dublin, in connexion with the "Great Southern and Western Railway." The Directors have contributed £500 towards the building and fitting-up of the Institution (which is to be under our exclusive control), and granted an eligible site for the purpose upon a lease for ever. The day schools will be attended, principally, by the children of the persons in their service, and in the evenings instruction will be given to the mechanics, artisans, and labourers employed by the Company. We deem it of great importance that a Model School of this character should be established in connexion with every principal railway in Ireland; and we shall be prepared to give our favourable consideration to applications for grants towards the promotion of an object which cannot fail to open a wide field of improvement to a useful and increasing class of our working population.

Marine School at Belfast.

42. We have received several applications to found schools for the instruction of sailor's children in a few of the leading maritime towns. As a commencement, we have resolved upon building a large school of this description in Belfast. The "Harbour Commissioners" of that town have, we understand, succeeded in obtaining an Act for the improvement of the harbour. One of its provisions is, that the Commissioners shall grant four acres of land, free of rent, or any other charge, for the purposes of a Marine School for the education of the children of seamen, and others residing at that port. It is to be under our exclusive management. We have undertaken to defray the expense of erecting the necessary buildings, and of maintaining the Institution. In a future Report we shall explain the course of instruction to be given to the children, and state the regulations by which the school is to be governed.

Report of Dr. Kirkpatrick on Agricultural Schools, and on the Model Farm.

XIII.—43. Dr. Kirkpatrick, our Agricultural Inspector, has furnished his Annual Report for 1853, on the Model and other Agricultural Schools under our Board, and on the Model Farm at Glasnevin. We publish this document in the Appendix, and beg to request your Excellency's attention to some of the statements contained in it.

44. It appears, from a Tabular Return embodied in Dr. Kirkpatrick's Report, that on the 31st of December, 1853, the number of Model Agricultural Schools, either in full or partial operation, or in course of building, was 33; of ordinary Agricultural Schools, 43; of Workhouse Agricultural Schools, 50; of School Gardens, 3; making a total of 129, and showing an increase on the year, upon all these classes of schools, of 37.

* The building of this school is completed, but the teachers have not yet been appointed.

45. We give in the foregoing lists, Nos. 1 and 2, the names of the Model Agricultural Schools in connexion with our Board, on the 31st December, 1853. They are divided into two classes. The first comprises those schools under our exclusive control. The second consists of those schools towards which we have made building grants, and awarded salaries and books, but which are under the superintendence of local Patrons or Managers. Model Agricultural Schools.

46. From these Returns it appears that of 33 Model Agricultural Schools 28 were in full operation at the end of the past year; 1 in partial operation, and 4 in progress of erection.

Reports of the Agricultural Teachers on the conduct and progress of the Industrial Classes.

48. We are gratified to state, on the authority of Dr. Kirkpatrick, that the Reports of the Agricultural Teachers on the Industrial Classes are, generally, satisfactory as regards their literary progress and their industry while working on the Farms. Dr. Kirkpatrick makes the following observation in reference to this subject:—"I find that the pupils composing the Industrial Class exhibit the most creditable proficiency in agricultural subjects, and, I am informed, in their literary studies likewise. There can be no doubt but that the habits of order, carefulness, and industry in which they are trained, during hours that might otherwise be uselessly or mischievously employed, must have a most beneficial effect in promoting their present progress as well as in laying the foundation of their future prosperity." The total number of this class of pupils, at the close of the last year, was 298, being an increase of 91 over that of 1852.

Industrial Classes.

49. The subjoined Table shows the number of pupils enrolled in the Industrial Classes on the 31st December, 1852 and 1853, respectively, and by whom paid for working on the Farm:—

Workhouse Agricultural Schools.

50. It affords us much gratification to state, that there has been a considerable augmentation in the number of Workhouse Agricultural Schools during the year 1853, and that since the 31st of last December a further increase has taken place.

51. The total number of Workhouse Agricultural Schools, on the 31st of December, 1853, was 50, of which 13 are in Ulster; 21 in Munster; 10 in Leinster; and 6 in Connaught. There has been an increase, on the whole, of 27 over the year 1852. We attribute this result, in a great degree, as we stated in our last Report, to the interest evinced by the Poor Law Commissioners for the advancement of agricultural instruction in connexion with the Workhouse Schools, and to an increasing conviction on the part of the local Guardians of its importance. Dr. Kirkpatrick points out in his Report many difficulties which impede the successful management of the agricultural departments in our Workhouse Schools, and the means by which he conceives they may be at least partially remedied. The attention of the local Guardians is specially directed to this portion of his Report.

52. In reviewing the progress of what has been effected in 1853, by means of our Agricultural Schools, in promoting practical instruction and fostering habits of industry amongst the children of our rural population, there is abundant cause

for congratulation with regard to the past, and for hope with regard to the future. In comparison with previous years, the rapid advancement in the quantity of land under cultivation, in the number of pupils employed, the computed value of their labour, and the amount paid in wages, is remarkable and encouraging. Mr. Brogan, our Sub-Inspector of Agricultural Schools, has constructed the subjoined Table, which affords proof of this statement.

Glasnevin Model School and Farm

53. The Glasnevin Agricultural Establishment is now designated, with the sanction of His Royal Highness, Prince Albert, who has taken the deepest interest in its welfare, the "Albert National Agricultural Training Institution." Much time and attention have been given to its management during the past year. The details and results are explained in the Report of our Superintendent, Mr. Donaghy, to which we beg to call your Excellency's attention.

Completion of the new farm buildings.

54. In former Reports we referred to the progress made in the erection of the new Farm Buildings at Glasnevin, and of the improved machinery we intended to provide for the various purposes of the farm. After delays, which could not have been foreseen, all the essential works have been completed. Seventy-five Agricultural Pupils are now lodged in the Establishment, besides the several domestics. It is intended that the number of pupils shall be ultimately increased to 100. Convenient arrangements have been adopted for their personal comfort, and their instruction in every branch of literary and scientific knowledge, suited to their present occupation and future pursuits. By means of lectures in various departments of science, in relation to agriculture, of a well-selected library, of effective apparatus, and the employment of additional teachers of skill and ability, we have been enabled to extend, considerably,

the course of study, and to strengthen the desire and to supply increased facilities for mental improvement. We entertain a confident expectation that, in the course of a reasonable time, this establishment will be one of the most complete institutions of the kind in the Empire.

The Journal of the Agricultural Training Institution.

55. There has been published, under the superintendence of the Literary Teacher, Mr. Baldwin, a journal, entitled "The Journal of the Albert National Agricultural Training Institution, and Record of Industrial Progress." Its object is fully explained in Dr. Kirkpatrick's Report. Several of the agricultural pupils contribute to it. It is published quarterly, and supplied gratuitously to all the Teachers of our Agricultural Schools. Its main design is to create and encourage a desire amongst the pupils for information on agricultural subjects, and to improve them in the practice of composition. There is every prospect of this desirable object being accomplished.

Visit of His Royal Highness Prince Albert to the Model Farm.

56. Many eminent persons visited the Establishment during the past year. Amongst them was the illustrious consort of our gracious Sovereign. His Royal Highness honoured the Establishment with his presence when her Majesty was last in Dublin, on the occasion of her visit to the Exhibition. The Prince was present at an examination of the pupils, and expressed himself highly gratified with their proficiency. His Royal Highness has, since his visit, afforded the strongest proof of the favourable opinion he has formed of the Institution, by sending over a young man from his farm at Osborne, to be admitted as an Agricultural Boarder, for the purpose of being trained.

Model Farm, Garden, and Nursery.

57. A Garden and Nursery have been attached to the Model Farm at Glasnevin, which have been placed under the management of a competent gardener. Beneficial changes have been introduced into the system of management, which will be found detailed in Mr. Campbell's Report. Dr. Kirkpatrick observes in his Report, with reference to this department, that "it is most desirable this branch of instruction should be enlarged, with the view of enabling a number of our agricultural pupils to qualify themselves for conducting school gardens in large towns, where farms may be found impracticable, and for filling the situation of steward and gardener."

58. We have to report favourably of the manner in which the Glasnevin Industrial School has been conducted during the year. Arrangements are in contemplation for enlarging the sphere of its usefulness. The system of cultivating small allotments of the garden ground, on their own account, by a class of pupils attending the Literary School, continues to be successful, and to fulfil the anticipations we had formed of its salutary influence. We refer for details to Mr. Hawe's Report, which contains a statement of the annual accounts and the Balance Sheet.

Annual endowment placed at the disposal of the Board by Robert Sullivan,

XIV.—59. The attention of the public has been recently directed to the importance of instructing the children of the poor in a knowledge of common, household, and familiar things. We think it right to observe, that from the commence-

ment of our labours, we were anxious to diffuse, through the medium of our class books, information of this practical character, and that we have accordingly introduced into them numerous lessons, embracing a variety of subjects connected with social economy,—labour, frugality, health, cleanliness, and sanitary regulations. It is of importance that our Teachers should be encouraged to excel in this branch of knowledge. It is, therefore, with satisfaction that we insert in our present Report the following letter from Robert Sullivan, Esq., LL.D., one of the Professors in our Central Training Establishment, with a copy of our reply:—

Esq., LL.D., to be appropriated as Premiums to National Teachers for proficiency in a knowledge of common things.

Education Office, 20th February, 1854.

GENTLEMEN,—In the month of November last I requested you to intimate to the Board, that, if it would not be considered irregular, I would feel great pleasure in placing funds to the amount of £20 per annum in their hands, to be given in premiums to the teachers of National Schools in the counties of Down and Antrim, who should be found by our Inspectors, at the general examination held each year in Belfast, to the best acquainted with "*the knowledge of common things.*"

At the same time I stated that the Dean of Hereford (who has done so much to promote popular education in England, and, above all, to make it *practical* and *utilitarian* in its objects), intended to offer similar premiums to the teachers of elementary schools in the county of Hereford. In fact, the idea—and I consider it a happy one—originated with the Dean; and I am merely following the good example which he has set; and I feel great pleasure at being able to add, that several persons of influence and consideration are also following his example—among others, Lord Ashburton, whose admirable speech on the subject you must have read. In fact, this speech far exceeds in value even the munificent prizes offered by his lordship.

To return to the subject of my letter. As you informed me that the Board would feel great pleasure in having my premiums distributed by their officers in the way which I had proposed, I now beg to enclose the sum of £20 for the present year; and for the next, and each succeeding year, the same amount for the same purpose will be permanently provided by me. Perhaps I should mention that I have *personal* reasons for limiting my premiums to the counties of Down and Antrim. But even if I had not, I would, in order to make them of some value, confine them to a particular county or district; and it is to be hoped that many other persons will follow the example of the Dean of Hereford, and that similar premiums will soon be offered to the National teachers in every county in Ireland.

As it is my wish that the whole matter should be left in the hands of the Inspectors who conduct the annual general examinations in Belfast, I will take no part in it, except to suggest that my friend, Mr. M'Creedy (Head Inspector), be requested to draw up a set of examination questions for the *present year*, and to make the necessary arrangements.

I am, Gentlemen, your obedient servant,

To the Secretaries. ROBERT SULLIVAN.

P.S.—The useful information contained in the school-books published by the Board, will probably form the principal part of the examination for the present year; and as I consider the education of girls of equal, and, indeed, of *greater importance* than that of boys, I will suggest to Mr. M'Creedy to divide the premiums equally between the male and female teachers. In addition to an examination in the National school-books, the female teachers should be asked some questions in domestic economy. Some questions should also be taken from Dean Dawes' "Suggestive Hints."

Education Office, 28th February, 1854.

SIR,—We have laid before the Commissioners of National Education, your letter of the 20th instant, proposing to place funds at their disposal, to the amount of £20 per annum, to be given as premiums to the teachers of National Schools in the counties of Down and Antrim, who should be found at the general examination held each year in Belfast, to be best acquainted with "the knowledge of common things." In reply, we are directed to convey to you the best thanks of the Commissioners for your very liberal offer, which they very willingly accept, especially as it will tend, in their opinion, to promote an object of which they cordially approve.

The Commissioners will at once give the necessary instructions to carry into effect your wishes; and they direct us to inform you, that they intend to call public attention to the subject of your letter in the body of their next Report.

We are, Sir, your obedient servants,

MAURICE CROSS, } Secretaries.
JAMES KELLY, }

Robert Sullivan, Esq., LL.D.,
Training Department.

60. The liberal endowment thus placed at our disposal, reflects great credit on Dr. Sullivan, and affords a proof of his devotion to the cause of National Education in Ireland, which he has done so much to advance by his excellent school-books, and by his earnest desire to promote the improvement and to raise the condition of our National Teachers.

Introduction of the National System of Education into the Colony of Victoria, in Australia.

XV.—61. We have had occasion in former Reports, to express our satisfaction at the introduction into some of the British Colonies of a system of National Education founded upon the principles of that which we have been appointed to administer in this country. A Board of National Education has been established in Melbourne—the Rules of which are similar to our own, with such slight modifications as are suited to the circumstances of that part of Australia. At the request of the Colonial Commissioners, we have selected and sent out one of our best Inspectors, Mr. Davitt, and his wife, late Mistress of our Female Drawing School in Marlborough-street, as Superintendents of the Training Establishment and Model Schools about to be established in Melbourne.

Visit of Her Majesty and His Royal Highness Prince Albert to the Model Schools.

XVI.—62. In our Report for 1849 we referred, with pride and gratitude, to the visit with which our Model Schools were honoured, on the 8th of August in that year, by Her Majesty, and her Royal Consort. It is now our gratifying duty to record, that a similar compliment was conferred upon our Institution on the 3rd of September, 1853, by our gracious Sovereign, and His Royal Highness Prince Albert, accompanied by your Excellency. We regard this event as an additional proof of the deep interest which Her Majesty and her Royal Consort take in the education of the children of the poor in Ireland, on just and comprehensive principles.

Financial Account.

XVII.—63. The account of receipts and expenditure has been made for the same period as the school statistics—namely, the year ending 31st of December, 1853.

64. We submit this, as our Report for the past year, to your Excellency, and in testimony thereof have caused our corporate Seal to be hereunto affixed, this Thirtieth day of June, One Thousand Eight Hundred and Fifty-four.

(Signed)

MAURICE CROSS, } *Secretaries.*

I.

I.—Rules and Regulations of the Commissioners of National Education, and Directions for making Application for Aid towards the Building of School-houses, or for the Support of Schools.

1.—The Commissioners grant aid towards the Building and Support of Schools of two Classes, Elementary Schools and Schools of Industry; but they can grant aid only to a limited number of the latter, and these must be at certain distances from each other. It is an indispensable condition for aid towards a School of Industry, that a Work-room shall be annexed to it, if it be situated in a City or Town; and if it be a Country or Rural School, that a certain quantity of land shall be provided for Garden culture.

It is, however, for the Patrons of each National School to determine whether they will make Agricultural or other industrial instruction part of the Education which it affords. It is for the Commissioners to do what they can in aid of their efforts, by having the Teachers taught the principles and practice of improved Agriculture during their Training Course, and by receiving Agricultural Pupils at the Model Farm Glasnevin. The Commissioners consider Schools for Females as of the class of Elementary Schools; but they require that instruction be there given in Sewing, Knitting, and other works suited to Females.

II.—*As to Government of Schools with respect to Attendance and Religious Instruction.*

1. The ordinary School business, during which all children, of whatever denomination they may be, are required to attend, is to embrace a specified number of hours each day.

2. Opportunities are to be afforded to the Children of each School for receiving such religious instruction as their parents or guardians approve of.

3. The Patrons of the several Schools have the right of appointing such religious instruction as they may think proper to be given therein, provided that each School be open to Children of all communions; that due regard be had to parental right and authority; that, accordingly, no child be *compelled* to receive, or to be present at, any religious instruction to which his parents or guardians object; and that the time for giving it be so fixed, that no child shall be thereby, in effect, excluded, directly or indirectly, from the other advantages which the School affords. Subject to this, religious instruction may be given either during the fixed School-hours or otherwise.

The following explanation of the preceding Rule, and observations of the Commissioners, accompanied by the *new Order* issued by them in 1850, in reference to the 9th paragraph of section 2, are taken from their Sixteenth Report.

"We have recently issued an important Order, on the subject of religious instruction, to which we beg to draw your Excellency's attention. In our Report for the year 1847, we stated that our Secretaries having informed us that they had been frequently consulted, both personally and by letter, as to the true meaning of the following portion of section 2, paragraph 3, of the Rules of the Board with reference to religious instruction—'That due regard be had to parental right and authority; that, accordingly, no child be compelled to receive, or be

present at, any religious instruction to which his parents or guardians object :' and that they deemed it desirable that we should supply them with an authoritative answer to such questions, we directed them, by a minute bearing date 18th November, 1847, to give the following explanation in reply to all such inquiries in future :—

"'First—That the true interpretation of the words in question clearly is, that no child be compelled to receive, or to be present at, any religious instruction to which his parents or guardians object; and that this rule (in conjunction with the notification in the School-room of the arrangement for giving religious instruction as required by Rule 9, section 2) has hitherto been found amply sufficient for the full enforcement of parental authority.

"'Secondly—That though all that is required by this rule (section 2, paragraph 3) is, that the Patron should engage not to compel any child to be present at such religious instruction ; yet, should the patron use any means, either directly or indirectly, to induce any child to attend such religious instruction, contrary to the desire of his parents or guardians, the Commissioners would consider such conduct inconsistent with the whole spirit of their system.'"

It was with a view to guard against the possibility of such a case arising, that the Commissioners gave the following important explanation of their sentiments in their Eleventh Report, for the year 1844, dated the 24th day of April, 1845:—

"It would be found impossible to lay down in detail any set of rules so accommodated to all the varying circumstances of every locality, and so guarded against all possible mistakes and misrepresentations, as to be secure from being violated in spirit, without any tangible infringement of the letter of them. For example, under our present rules, the Patron of a National School may give religious instruction during even the fixed School-hours. A Patron, Protestant or Roman Catholic, might possibly, availing himself of the letter of this rule, make so unjust a use of this privilege as to drive from the School all children of a persuasion different from his own, or induce them, if they remained, to share in the religious instruction to which they and their parents were conscientiously opposed. In such a case we should immediately interpose, and cause the Patron to abandon a course so inconsistent with the whole spirit of our system ; or, in case of his refusal, we should strike the School off our roll.

"The Order which we have deemed it right to make is as follows :—'That the following arrangement be adopted for carrying out more effectually the Rule as to the notification of the time for giving religious instructions, as set forth in the 9th paragraph of section 2 of the Rules and Regulations of the Commissioners :—

"'First—That the public notification of the time for religious instruction shall be inserted in large letters in the "Time Table" supplied by the Commissioners to all National Schools; and the Commissioners strongly recommend that, as far as may be practicable, the general nature of such religious instruction shall be also stated on the "Time Table."

"'Secondly—That the "Time Table" shall be kept constantly hung up in a conspicuous place in the School-room.

"'Thirdly—That, in order "that no child be compelled to receive, or to be present at, any religious instruction to which his parents or guardians object," the teacher shall immediately before the commencement of religious instruction, announce distinctly to the pupils, that the hour for religious instruction has arrived, and shall, at the same time, put and keep up, during the period allotted to such religious instruction, and within the view of all the pupils, a notification thereof,

containing the words "Religious Instruction," printed in large characters, on a form to be also supplied by the Commissioners.

"'Fourthly—That, when the secular instruction shall precede the religious instruction, in any National School, there shall be a sufficient interval between the announcement and the commencement of the religious instruction, and, whether the religious or the secular instruction shall have priority in any National School, the books used for the instruction first in order, shall be carefully laid aside at its termination, in the press or other place appropriated for keeping the school-books.'

"Although, so far as we are aware, no case has ever yet occurred in which proselytism has taken place, either on the Roman Catholic or Protestant side, in any National School, yet fears have been entertained that such attempts might be made during the time set apart for religious instruction. The arrangement we have now adopted will, we trust, go far to remove such fears, and cannot be objected to by any one who places his school under us, with the honest purpose of acting upon our leading principle. In founding our system, Lord Stanley announced, 'that even the suspicion of proselytism should be banished from it'—'that security would be afforded by it'—'that the most scrupulous care should be taken not to interfere with the peculiar tenets of any description of Christian pupils.' His language in this respect is in exact accordance with that employed in the Fourteenth Report of the 'Commissioners for inquiry into the state of all Schools on public or charitable foundations in Ireland.' In that Report, published in 1812, and signed by the Archbishops of Armagh and Cashel, by the Bishop of Killala, and by Provost Elrington, the Commissioners declare their hope that the scheme of National Education proposed by them will be cordially accepted by the people of Ireland. And they add these memorable words: 'That such will be its acceptance we shall indulge the more confident expectation, if all interference with the particular religious tenets of those who are to receive that instruction shall, in the first instance, be unequivocally disclaimed, and effectually guarded against. We conceive this to be of essential importance in any new establishments for the education of the lower classes in Ireland: and we venture to express our unanimous opinion that no such plan, however wisely and unexceptionally contrived in other respects, can be carried into effectual execution in this country, unless it be explicitly avowed, and clearly understood, as its leading principle, that no attempt shall be made to influence or disturb the peculiar religious tenets of any sect or description of Christians.' No person who does not from his heart adopt the sentiments here expressed by the Commissioners, and which are embodied in Lord Stanley's Letter, can conscientiously avail himself of our grants; and no one who does adopt those sentiments can object to the Order which we have issued on this occasion."

4. In Schools, towards the building of which the Commissioners have contributed, and which are, therefore, VESTED in Trustees, for the purposes of National Education, or, which are vested in the Commissioners in their corporate capacity, such Pastors or other Persons as shall be approved of by the parents or guardians of the Children respectively, shall have access to them *in the School-room*, for the purpose of giving them religious instruction there, at convenient times to be appointed for that purpose, whether those pastors or persons shall have signed the original application or otherwise.

5. In Schools NOT VESTED, but which receive aid only by way of Salary and Books, it is for the Patrons to determine whether religious instruction shall be given *in the School-room* or not; but if they do not

allow it in the School-room, the Children whose parents or guardians so desire, must be allowed to absent themselves from the School, at reasonable times, for the purpose of receiving such instruction ELSEWHERE.

6. The reading of the Scriptures, either in the Protestant Authorized or Douay Version, as well as the teaching of Catechisms, comes within the rule as to religious instruction.

7. The rule as to religious instruction applies to Public Prayer and to all other religious exercises.

8. The Commissioners do not insist on the "Scripture Lessons" or book of "Sacred Poetry" being read in any of the National Schools, nor do they allow them to be read as part of the ordinary school business (during which all children, of whatever denomination they may be, are required to attend) in any school attended by children whose parents or guardians object to their being read by their children.

In such cases the Commissioners prohibit the use of these books, except at times set apart for the purpose, either before or after the ordinary school business, and under the following conditions:—

First—That no child, whose parent or guardian objects, shall be required directly or indirectly, to be present at such reading.

Second—That in order that no child, whose parent or guardian objects, may be present at the reading of the books above specified, public notification of the time set apart for such reading shall be inserted in large letters in the time-table of the school—that there shall be a sufficient interval between the conclusion of the ordinary school business and the commencement of such reading; and that the teacher shall immediately, before its commencement, announce distinctly to the pupils that any child whose parent or guardian so desires may then retire.

Third—That in every such case there shall be, exclusive of the time set apart for such reading, sufficient time devoted each day to the ordinary school business, in order that those children who do not join in the reading of the books may enjoy ample means of literary instruction in the school-room.

9. Whatever arrangement is made in any School for giving religious instruction, must be *publicly notified* in the School-room, in order that those Children, and those only, may be present whose parents or guardians allow them.*

10. If any other books than the Holy Scriptures, or the *standard* books of the Church to which the Children using them belong, are employed in communicating religious instruction, the title of each is to be made known to the Commissioners.

11. The use of the books published by the Commissioners is not compulsory; but the titles of all other books which the Conductors of Schools intend for the ordinary School business, are to be reported to the Commissioners; and none are to be used to which they object; but they prohibit such only as may appear to them to contain matter objectionable in itself, or objectionable for *common* instruction, as peculiarly belonging to some particular religious denomination.

12. A Registry is to be kept in each School of the daily attendance of the Scholars, and the average attendance, according to the Form furnished by the Commissioners.

III.—*Miscellaneous.*

1. It is the earnest wish of Her Majesty's Government, and of the Commissioners, that the Clergy and Laity of the different religious de-

nominations in the country should co-operate with one another in conducting National Schools.

2. When any School is received by the Commissioners into connexion with them, the inscription, "NATIONAL SCHOOL," *and no other*, shall be put up conspicuously on the School-house; and when a School-house is built partly by aid from them, a stone is to be introduced into the wall having that inscription cut upon it.

This rule is not to be understood as precluding the addition to the terms "National School" of the description of children for whom the school is designed, as Male, Female, or Infant, or of the proper local designation of the city, town, parish, street, village, or townland, in which the school may be situated; but the Commissioners will not sanction the inscription of any title of a *denominational character*, or which may appear to them to indicate that the school is one peculiarly belonging to any particular religious body.

3. The Commissioners require that no use shall be made of the School-rooms for any purpose tending to contention, such as the HOLDING OF POLITICAL MEETINGS IN THEM, or bringing into them political petitions or documents of any kind for signature.

4. The Commissioners require that the National School-rooms shall not be converted into places of PUBLIC WORSHIP.

5. The Commissioners require the School-rooms to be used *exclusively for the purposes of Education;* and any breach of this Rule will be held to be a violation of the principles of the National Education System.

6. The Commissioners require that the principles of the following Lesson, or of a Lesson of a similar import, be strictly inculcated in all Schools admitted into connexion with the Board, and that a copy of the Lesson itself be hung up in each School.

Christians should endeavour, as the Apostle Paul commands them, to "live peaceably with all men" (Rom. ch. xii. v. 17), even with those of a different religious persuasion.

Our Saviour, Christ, commanded his disciples to "love one another." He taught them to love even their enemies, to bless those that cursed them, and to pray for those who persecuted them. He himself prayed for his murderers.

Many men hold erroneous doctrines, but we ought not to hate or persecute them. We ought to seek for the truth, and to hold fast what we are convinced is the truth; but not to treat harshly those who are in error. Jesus Christ did not intend his religion to be forced on men by violent means. He would not allow his disciples to fight for him.

If any persons treat us unkindly, we must not do the same to them; for Christ and his apostles have taught us not to return evil for evil. If we would obey Christ, we must do to others, not as they do to us, but as we would wish them to do to us.

Quarrelling with our neighbours and abusing them, is not the way to convince them that we are in the right, and they in the wrong. It is more likely to convince them that we have not a Christian spirit. We ought to show ourselves followers of Christ, who, "when he was reviled, reviled not again" (1 Pet. ch. ii. v. 23), by behaving gently and kindly to every one.

7. The Commissioners regard the attendance of any of their Teachers at meetings held for *political purposes*, or their taking part in elections for Members of Parliament, except by voting, as incompatible with the performance of their duties, and as a violation of rule which will render them liable to dismissal.

8. Should the Commissioners consider any Teacher employed in a School under the Board unfit for his office, or otherwise objectionable, they require that he be dismissed and another provided. Teachers are also liable to be fined or suspended, at all times, when the Commissioners shall deem it necessary, on sufficient cause being shown.

APPENDIX A.

I. Rules and Regulations of Commissioners.

9. The Commissioners by themselves, or their Officers, are to be allowed to visit and examine the Schools whenever they think fit. Those who visit on the part of the Commissioners are furnished with credentials under their Seal.

IV.—*Inspection of Schools.*

1. ADMISSION OF VISITORS.

1. The public generally must have free access to every National School during the hours devoted to secular instruction,—not to take part in the ordinary business, nor to interrupt it, but, as Visitors, to observe how it is conducted.

2. Every Teacher of a National School is to receive courteously Visitors of all denominations, to afford them free access to the School-room, and full liberty to observe what books are in the hands of the Children, or upon the desks ; what tablets are hung up on the walls, and what is the method of teaching ; but they are by no means required to permit any person to interrupt the business of the School, by asking questions of Children, examining classes, calling for papers of any kind, or in any other way diverting the attention of either Teachers or Scholars from their usual business.

3. Should any Visitors wish for information which they cannot obtain by such an inspection, it is the duty of the Teachers to refer them to the Patrons or Managers of the School for it.

4. Every Teacher is required to have his Visitors' or Daily Report Book lying upon his desk, that Visitors may, if they choose, enter remarks in it. Such remarks as may be made, the Teachers are by no means to alter or erase ; and the Inspector of the district is required to transmit to the Commissioners copies of such remarks as he may deem of sufficient importance to be made known to them.

5. As the religious instruction of the Children is under the control of the Clergyman or Lay person, communicating it with the approbation of their parents, the Commissioners can give no liberty to any other Visitor, whether Clergyman or Layman, to interfere therewith.

2. INSPECTION BY THE COMMISSIONERS OR THEIR OFFICERS.

1. The Commissioners do not take the control or regulation of any School, except their own Model Schools, directly into their own hands, but leave all Schools aided by them under the authority of the Local Conductors. The *Inspectors*, therefore, are not to give direct orders, as on the part of the Board, respecting any necessary regulations, but to point out such regulations to the conductors of the School, that *they* may give the requisite orders.

2. The Commissioners require that every National School be inspected by the *Inspector of the District*, at least three times in each year.

3. The *District Inspector* on each inspection is to communicate with the Patron or Correspondent, for the purpose of affording information concerning the general state of the School, and pointing out such violations of rule, or defects, if any, as he may have observed ; and he is to make such suggestions as he may deem necessary.

4. He is to examine the Visitors' Book, or Daily Report Book, and to transmit to the Commissioners copies of any observations made therein which he may consider to be of importance.

5. He is not to make any observation in the Book except the date of his visit, the time occupied in the inspection of the School, showing

the precise time at which it commenced, and the precise time at which it terminated; and also the number of Scholars present.

6. Upon ordinary occasions, he is not to give any intimation of his intended visit; but during the middle term of the year, from 1st May to the 31st August, when the inspection is to be public, he is to make such previous arrangements with the Local Managers, as will facilitate the attendance of the parents of the Children, and other persons interested in the welfare of the Schools.

7. He is to report to the Commissioners the result of each visit, and to use every means to obtain accurate information as to the discipline, management, and methods of instruction pursued in the School.

8. He is to examine all the classes in succession, in their different branches of study, so as to enable him to ascertain the degree and efficiency of the instruction imparted.

9. He is to examine the Class Rolls, Register, and Daily Report Book; and to report with accuracy what is the actual number of Children receiving instruction at the School, and what is the daily average attendance.

10. He is to receive a monthly Report from the Teacher of each School, and also to make one quarterly himself to the Commissioners, in addition to his ordinary Report upon the School after each visit.

11. He is also to supply the Commissioners with such local information as they may from time to time require from him, and to act as their agent in all matters in which they may employ him; but he is not invested with authority to decide upon any question affecting a National School, or the general business of the Commissioners, without their direction.

12. When applications for aid are referred to the District Inspector, he is to communicate with the applicant so as to insure an interview, and also with the Clergymen of the different denominations, in the neighbourhood, with the view of ascertaining their sentiments on the case, and whether they have any, and what, objections thereto. He is also to communicate personally, if necessary, with any other individuals in the neighbourhood.

13. The District Inspector is to avoid all discussions of a religious or political nature; he is to exhibit a courteous and conciliatory demeanour towards all persons with whom he is to communicate, and to pursue such a line of conduct as will tend to uphold the just influence and authority both of Managers and Teachers.

V.—*As to Appointment, Salaries, Conduct of Teachers, &c.*

1. GENERAL RULES AS TO APPOINTMENT AND CLASSIFICATION OF TEACHERS.

1. The appointment of Teachers rests with the Local Patrons and Committees of Schools, but the Commissioners are to be satisfied with the fitness of each, both as to character and general qualification; and the Local Patrons have the power of removing the Teachers of their own authority. The Teacher should be a person of Christian sentiment, of calm temper, and discretion; he should be imbued with a spirit of peace, of obedience to the law, and of loyalty to his Sovereign; he should not only possess the art of communicating knowledge, but be capable of moulding the mind of youth, and of giving to the power which education confers a useful direction. These are the qualities for which Patrons of Schools, when making choice of Teachers, should anxiously look. They are those which the Commissioners are anxious to find, to encourage, and to reward.

2. The Commissioners have provided a Normal Establishment in Marlborough-street, Dublin, for training Teachers, and educating persons who are intended to undertake the charge of Schools; and they do not sanction the appointment of a Teacher to any School, unless he shall have been previously trained at the Normal Establishment, or shall have been pronounced duly qualified by the Inspector of the District in which the School is situated.

3. Teachers selected by the Commissioners for admission to the Normal Establishment, must produce a Certificate of good character from the officiating Clergyman of the communion to which they belong; and must pass through an examination in the Books published by the Commissioners. They are to be boarded and lodged at the Establishments provided by the Board for the purpose, in Dublin, and at Glasnevin, in the immediate neighbourhood of Dublin, to which latter, an Agricultural Department is attached. They are to receive religious instruction from their respective Pastors, who attend on Tuesdays at the Normal Establishment; and on Sundays they are required to attend their respective places of worship; and a vigilant superintendence is at all times exercised over their moral conduct.

4. They are to attend upon five days in the week at the Training and Model Schools, where lectures are delivered on different branches of knowledge, and where they are practised in the art of Teaching. They are to receive instruction in Agriculture daily, and they attend on Saturdays at the Farm, at Glasnevin, which is conducted under the direction of the Commissioners, and where they see theory reduced to practice. They undergo a final examination at the close of their course, and each will then receive a certificate according to his deserts. The course of training at present occupies a period of four months and a-half, and for a considerable time previous to their being summoned, they are required to prepare themselves for the course.

5. Teachers of Schools unconnected with the National Board, if properly recommended, are also admitted to attend the Normal Establishment, as day pupils, without any charge for tuition; but such persons maintain themselves at their own expense.

6. All Teachers, appointed after the 1st of April, 1851, who have not been previously classed by the professors or by a Board of Inspectors, shall be paid as Probationers, until they be examined at the first General or Special examination held in the district subsequently to their appointment. Those who then obtain classification, will be paid from the commencement of their service under the Board according to the rate of salary attached to their class.

7. This rule will not extend to any teachers who, when summoned, shall fail, from any cause whatever, to present themselves for examination.

8. All Teachers who have been unsuccessful at their first examination, and who may be retained on trial, shall receive the salary of the class to which they may be promoted at any subsequent examination, from the commencement of the quarter in which their classification shall be determined.

9. Teachers who after their first examination have been retained on trial as Probationers, if not recommended for promotion by the Head or District Inspectors, at the next ensuing examination, or by the Professors after training, cannot be continued in the service of the Board; but their salaries will be paid for one month subsequent to the date of dismissal.

10. All newly appointed Teachers who, after examination by the

Inspectors, may be found wholly unqualified, shall be paid salary up to the close of the month in which the Commissioners refuse to sanction their appointment.

11. The Pupil Teachers of District Model Schools, on taking charge of National Schools after the completion of their course of training, shall rank as Third Class Teachers (provided they be deemed qualified for that class by the Head Inspector) until they shall have been classed at the first General or Special Examination held after their appointment in the district in which their Schools are situated, from which date they will be paid according to their classification.

12. All Teachers must remain at least one year in a lower division of any class, before they are eligible for examination with a view to promotion to a higher division; and they must remain two years in a class before they can become candidates for a higher class. These conditions, however, being fulfilled, Teachers of superior attainments may be advanced from any division of one class to any division of another after their first classification (except untrained Teachers who cannot be placed in the First Class) without requiring them to pass through the intermediate divisions.

13. This regulation does not apply to Teachers who may be promoted on the recommendation of the Professors at the termination of their course of training.

14. All Teachers, except Probationers, recommended for promotion after a course of training, will receive the increase of salary from the commencement of the quarter in which they are classed by the Professors.

15. No Teachers can be raised to any division of the First Class, unless they shall have been trained at the Normal School of the Commissioners, and recommended for promotion by the Professors at the end of the course of training, or by a Board of Inspectors.

16. The Commissioners have determined upon a course of study for each class, in which the teachers are to be examined as a test of their fitness for promotion; but their general conduct, the condition of their respective schools, their method of conducting them, and the daily average attendance of pupils will also be taken into consideration.

17. No Teacher will be admitted to examination, with a view to promotion, on whose School a decidedly unfavourable report has been made by the District Inspector within the previous year.

18. Teachers will not be eligible for promotion, unless, in addition to satisfactory answering in the course prescribed for the Class to which they aspire, it appears from the reports of their respective District Inspectors, that their Schools are properly organized and well conducted; that adequate exertions have been made to keep up a sufficient average attendance; that their junior classes are carefully taught, and that a fair proportion of the pupils of the higher Classes, besides being proficients in the ordinary branches of Reading, Spelling, and Writing, are possessed of a respectable amount of knowledge in, at least, Grammar, Geography, and Arithmetic. In Female Schools it will be further requisite that instruction in plain Needlework, including sewing, knitting, and cutting-out, be given to all girls capable of receiving it, and that they exhibit a due proficiency in this department.

19. It must also appear from the reports of their Inspectors, that their School Accounts have been regularly and correctly kept, that their Schools and School premises have been preserved with neatness and order, and that cleanliness in person and habits has been enforced on the children attending them.

APPENDIX A.

I. Rules and Regulations of Commissioners.

20. Satisfactory Certificates of conduct and character will be required of all Candidates.

21. Every National Teacher will be furnished, on application to the District Inspector, with a copy of the programme of the course of study above referred to, in which is stated the minimum of proficiency required for each class.

22. The Head and District Inspectors are authorized to recommend that such Teachers be removed, fined, or lowered in their classification as may have conducted themselves improperly, or in whose Schools the attendance has considerably decreased, or who, from any other cause, may seem to these officers to merit such punishment.

23. Salaries are granted by the Commissioners to the Teachers *individually*. No new Teacher, therefore, is to receive a Salary from them unless they have first approved of him; the amount is regulated by the Class in which he may be placed.

2. SALARIES AND GRATUITIES TO TEACHERS AND PAID MONITORS.

1. The Commissioners grant salaries and gratuities to Teachers and to Paid Monitors of National Schools at the following rates, subject to the foregoing and annexed regulations:—

2. The Commissioners require that a further income be secured to the Teacher, either by Local Subscription or School-fees, to such amount in each case as they may direct; and the Commissioners also require that the payments made by the Children shall not be diminished in consequence of any increase of Salary which may be awarded to the Teacher.

Agricultural Schools.

1. Masters of Agricultural Model Schools who are competent to conduct both the Literary and Agricultural Departments are, whatever may be their classification, to receive £10 per annum, in addition to the salary of the class in which they may be placed; and provided their income from the Board, with this addition, should fall short of £30 per annum, the difference will be granted to them, so that, in all cases, such Teachers shall have secured to them for their *combined* services a salary of £30 a year at least.

2. Masters of National Schools, having a small portion of land annexed to their Schools, consisting of from two to three acres, for the purpose of affording agricultural instruction, will receive £5 per annum, in addition to the salary of their class, provided they are competent to conduct both the Literary and Agricultural Departments, and the Commissioners shall have previously approved of Agriculture being taught in the School.

3. In cases where a sufficient number of acres of land are attached to Workhouse Schools in connexion with the National Board of Education, the Commissioners award annual gratuities, not exceeding £15 to each, to such of the Agricultural Teachers who shall be recommended as deserving of them by the Agricultural Inspectors.

Assistant Teachers.

Salary not to exceed £15 for males, and £13 for females.

1. The Commissioners will not grant a higher rate of Salary than the above to an Assistant Teacher, even if classed; nor will they consider any application for a grant of Salary to an Assistant in any School in which there is not a daily average attendance of at least seventy-five Pupils; and in Schools whose average attendance does not rise considerably above this, and which are already provided with Paid Monitors, Assistants cannot be recognized by the Board.

2. When applications for an Assistant are laid before the Commissioners, they will determine whether it will not be more advisable to appoint a Paid Monitor.

3. Assistant Teachers will not be sanctioned whose qualifications are not at least equal to those required of Probationers.

Workmistresses.

Salary, £8 per annum.

1. The Commissioners will not grant Salary to Workmistresses, unless there be a sufficient daily average attendance of Pupils, and the Commissioners require that at least two hours each day be devoted by them to instruction in this branch.

2. In Schools attended by Female Children only, under the care of a Female Teacher, such Teacher must be competent not only to conduct the Literary Department, but also to give instruction in Needlework.

Schools in Connexion with Religious Bodies.

1. In Schools of this description, salary is paid according to a per centage on the daily average attendance:—

£20	per annum for	100	daily average,

£60	„	300	„
£77	„	400	„
£94	„	500	„
£111	„	600	„

And for every 50 over 600 at the rate of £15 per cent.

Industrial Schools.

1. In National Schools where embroidery and other high branches of Needlework are taught, the amount of Salary granted for giving such instruction is regulated by the nature of the work, and the number of Pupils engaged in it.

Paid Monitors.

SALARIES.

For the First Year, ...	£4
For the Second Year, ...	£5
For the Third Year, ...	£7
For the Fourth Year, ...	£8

1. The number of Paid Monitors is limited to eight males and four females in each District, selected from among the best Pupils in the

I. Rules and Regulations of Commissioners.

National Schools, and appointed upon the recommendation of the District Inspectors, subject to the approval of the Commissioners.

2. This appointment cannot be held for a longer period than FOUR YEARS, at the expiration of which the Salary will be discontinued.

3. The Salary may, however, be withdrawn at any time, should want of diligence, efficiency, or good conduct on the part of the Monitor, or any other circumstance, render such a course desirable.

4. The District Inspector selects the Schools to which Paid Monitors should be appointed; and when vacancies occur, whether before or after the expiration of four years, it does not necessarily follow that a successor shall be appointed in the same Schools.

5. When all the District Model Schools are established, candidates for the office of Paid Monitor must undergo a Public Examination by the Inspectors, in a prescribed course, to be held in those Schools.

6. The selection will be made, as far as possible, from those who have shown aptitude for teaching.

7. The Candidates should not be under fourteen nor over sixteen years of age. They must be of a sound and healthy constitution, and free from any physical defect likely to impair their efficiency as Teachers.

8. The School to which the Candidate belongs should exhibit a tolerable degree of efficiency, should have a sufficient average attendance to require a Paid Monitor, and the Teacher should be qualified to give instruction in the prescribed course.

9. The Paid Monitors' Programme can be obtained on application to the District Inspector.

10. Paid Monitors who have completed the four years of their course in a satisfactory manner, are eligible, on examination by the Inspectors, for the situation of Assistant Teacher, or of Pupil-Teachers in District Model Schools.

Scale of Gratuities to Masters and Mistresses of Workhouse Schools.

1. The Commissioners for National Education have resolved with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number (forty males and forty females) of the Teachers of the Workhouse Schools, in connexion with the National Board, who shall be recommended by the District Inspectors.

2. The gratuities are divided into two classes:—

For Male Teachers,	First Class, .	. Twenty at £6 a-year each.
	Second Class,	. Twenty at £4 a-year each.
For Female Teachers,	First Class, .	. Twenty at £5 a-year each.
	Second Class,	. Twenty at £3 a-year each.

3. The payment will be made half-yearly, with the usual issue of Salary to Teachers of National Schools, after the 31st March, and 30th September, in each year.

4. It is to be understood that such gratuities are given in *addition* to the Salaries paid to the Teachers of Workhouse Schools, under the provisions of the Poor Law Act.

5. No Teacher is precluded from receiving the gratuity two or more years in succession, if recommended by the District Inspector as deserving of it; but a Teacher having received one year's gratuity is not thereby *entitled* to a continuance of it.

Scale of Premiums to Masters and Mistresses of National Schools who are most distinguished by the Order, Neatness, and Cleanliness observable in themselves, their Pupils, and in the School-houses.

1. The sum of £22 10*s.* will be allocated to each of the School Districts, and divided into Thirteen Premiums.

One of	£4	£4
Two of	£3	£6
Five of	£1 10*s.*	£7 10*s.*
Five of	£1	£5

2. These Premiums will be awarded ANNUALLY on the recommendation of the District Inspector, and paid at the end of the year.

3. No distinction is made between Vested and Non-Vested Schools.

4. No Teacher is eligible for these Premiums for more than two years in succession.

5. These Premiums will be awarded without reference to the Class in which the Teachers may be placed; but none will be deemed eligible to receive such Premiums against whom there is any well-founded charge of neglect in the performance of their duties, of impropriety in their conduct, or whose Schools are not conducted in a satisfactory manner.

VI. *Books.*

1. The Commissioners furnish gratuitously to each School a first Stock of School-Books, in proportion to the attendance of Children, which is renewed at the end of every three years. They are to be kept as a School Stock, for which the Master or Mistress is held responsible, and they are on no account to be taken out of the School. The Commissioners also supply Books from time to time for the general use of the Children, and School Requisites, such as Paper, Slates, Quills, &c., at reduced rates.

2. The funds of the Commissioners do not enable them to give a Free Stock sufficiently large for the entire wants of the School. Any additional books, and maps; stationery, slates, clocks, and other requisites, must be purchased at reduced rates.

3. The value of the grant is regulated by the daily average attendance, as ascertained from the reports of the Inspectors. The Managers of Schools have the privilege of selecting their grants of Free Stock from the *whole* list of books supplied by the Commissioners, and are at liberty to choose such of them as they most approve of, and to omit any to which they object.

4. When Books, &c., purchased from the Commissioners at the reduced price, are sold to the children attending a National School, it is directed that in no case shall any advance be made on these prices; and the District Inspectors have instructions to inquire into and report upon any infraction of this rule.

VII. *Building.*

1. Before any grant is made towards Building a School-house, the Commissioners are to be satisfied that a necessity exists for such a School, that an eligible site has been procured, that a satisfactory Lease of the site will be executed to the Commissioners in their Corporate capacity; and that the applicant parties are prepared to raise, by local contribution, at least one-third of the whole sum which the Commissioners deem necessary for the erection of the House, providing Furniture, &c.

2. If the proposed site be for a School in a rural District, and be within three statute miles of a School-house, towards the erection of which the Commissioners have contributed aid, no grant can be made.

3. Although the Commissioners do not absolutely refuse aid towards the erection of School-houses on ground connected with a place of Worship, yet they much prefer having them erected on ground which is not so connected, where it can be obtained; they therefore require that, before Church, Chapel, or Meeting-house ground be selected as the

APPENDIX A.

I. Rules and Regulations of Commissioners.

site of a School-house, *strict* inquiry be made whether another convenient site can be obtained, and that the result shall be stated to them.

4. The School premises must be vested in the Commissioners, at a nominal rent, and for such term, under the circumstances, as they may deem necessary.

5. The Commissioners will keep in repair the School-house and Furniture, where the premises are vested in them in their Corporate capacity.

6. When Grants are voted towards the Building, &c., of a School-house, the conveyance must be duly executed *before the works are commenced.*

7. No Grant can be made until the District Inspector shall have reported upon all the circumstances of the case.

8. The Commissioners determine from the information afforded them the dimensions of the proposed Building.

9. The Commissioners cannot, in any case, pay more than two-thirds of the sum which they may deem necessary for the erection of the School-house (including Furniture, &c.); and they invariably require that the remaining one-third, at least, shall be locally provided for.

10. The cost of the House, &c., is determined by the number of Children which it is intended to accommodate, allowing an area of six square feet for each child.

Example.—A School-house capable of accommodating one hundred Children should contain not less than an area of six hundred square feet, and should be ten feet high to the wall-plate.

11. The Commissioners furnish instructions as to the Plan and Specification, to which the parties receiving aid are bound strictly to adhere.

12. The Commissioners do not contribute to the ornamenting of School-houses, but merely to such expenditure as may be necessary for having the Children accommodated in plain, substantial buildings. If buildings of another description be preferred, the whole of the extra expense must be provided by the applicants.

13. The Commissioners do not contribute towards the expense of erecting Residences for the Teachers, except in the case of a District Model School.

14. The House, Furniture, &c., must be completed, the Teacher or Teachers appointed, and the school in operation, before the Grants can be paid.

15. The whole of the works must be completed within twelve months from the date of the execution of the Lease (unless by special permission), or the Grants will be forfeited.

16. The Commissioners do not make advances or instalments of their Grants.

17. Previous to the payment of the Grants, a Certificate, according to a Form furnished, must be forwarded to the Commissioners, stating that the School-house, Furniture, &c., have been completed in a satisfactory and workmanlike manner, and built according to the dimensions and directions set forth in the Plan and Specification. This Certificate to be signed by the Manager and by the Contractor. The work to be approved of by the Clerk of Works, or by any other person authorized by the Commissioners or the Government to examine it; and if a question arise as to the expenditure incurred, the accounts must be submitted to any audit which may be deemed necessary.

18. The Commissioners do not make Grants to purchase School-houses, nor to purchase, alter, or furnish other Houses, for the purpose of being converted into School-houses.

VIII. *Aids to Schools previously established.*

1.

1. The aid granted to Schools previously established is limited to Salary and Books.

2. Before such aid can be granted, the Commissioners must be satisfied that the case is deserving of assistance; that there is reason to expect that the School will be efficiently and permanently supported; that some local provision will be made in aid of the Teacher's Salary, either by School-fees or otherwise; that the School-house is in good repair and provided with a sufficient quantity of suitable Furniture; that a competent Teacher has been appointed; that the School is in operation; and that there is a *sufficient* daily average attendance of Children.

3. Before the Commissioners consider any application for aid, they require, from the Inspector of the District, a report upon all the circumstances of the case.

4. To entitle a School to a continuance of aid, the House and Furniture must be kept in sufficient repair, by means of local contributions; the School conducted in all respects, in a satisfactory manner, and in accordance with the regulations of the Commissioners; and it must appear from the Register of the School, that there is a sufficient daily average attendance of Pupils.

2. *Workhouse Schools.*

Extract from the Act for the more effectual Relief of the Destitute Poor of Ireland, 1st and 2nd Vict., ch. 56, sec. 49 :—

"And be it enacted, that no order of the Commissioners, nor any "by-law shall oblige any inmate of any workhouse to attend or be pre-

"sent at any religious service which may be celebrated in a mode contrary "to the religious principles of such inmate, nor shall authorize the "education of any child in such workhouse in any religious creed other "than that professed by the parents or surviving parent of such child, "and to which such parents or parent shall object, or, in the case of an "orphan, to which the guardian or guardians, godfather or godmother "of such orphan, shall object: Provided also, that it shall be lawful for "any regular minister of the religious persuasion of any inmate of such "workhouse at all times in the day, on the request of such inmate, to "visit such workhouse, for the purpose of affording religious assistance "to such inmate, *and also for the purpose of instructing his child or children "in the principles of his religion.*"

Such Schools are received into connexion, and grants of Books made thereto, on condition that they shall be subject to inspection by the Commissioners, or their Officers, and that the provisions of the above enactment, in reference to Religious Instruction, shall be faithfully observed.

The Commissioners have resolved, with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number of the Teachers of the Workhouse Schools, in connexion with the National Board, who shall be recommended by the District Inspectors.

For Scale of Gratuities and the conditions under which they are awarded, see section V.

3. SCHOOLS ATTACHED TO PRISONS.

Such Schools are received into connexion, upon the same general principles as the Workhouse Schools, and grants of Books are made thereto.

IX.—1. As Applications for aid have frequently been made in respect of expenses incurred previously to any communication with the Commissioners, they desire to be distinctly understood, that they will not hold themselves bound to grant assistance in any case, unless application shall have been made to them in the first instance, unless such application shall have been approved of, and unless they shall have funds at their disposal when they come to decide upon the case, to enable them to grant the required aid. Applicants are therefore recommended not to incur any expense towards the payment of which they expect the Commissioners to contribute, until the decision of the Board shall have been communicated to them.

2. Applicants for assistance are not to understand that the Commissioners are bound to grant the full amount of aid, as set forth in the foregoing Regulations, in every case; nor can they grant any unless they have sufficient funds for the purpose, which depends upon the amount placed at their disposal by Parliament.

3. Persons desirous of obtaining assistance from the Commissioners of National Education, under any of the foregoing heads, will, upon intimating to the Secretaries the nature of the aid required, be furnished with the Forms, upon which their application must be laid before the Commissioners.

4. All communications in reference to National Schools should be made by the Manager or Correspondent. The Commissioners do not correspond with Teachers.

5. All letters should be directed as under. No communications are

received which are not prepaid, except those containing Documents sent from this office, and which are required to be returned.

2. When a post-office order is transmitted, and the amount is under *ten shillings*, the postmaster's charge must be paid by the person applying for the order; if the sum exceed ten shillings, it is to be handed to the postmaster, who will deduct his charge, and Requisites will be given for the *full amount* PAID.

The Inspectors are required to report to the Secretaries whenever it appears that an undue quantity of Books or Stationery has been ordered for a National School.

4. All applications for Books and Requisites, at reduced prices, are to be prepaid by the Managers, or the amount of postage will be deducted from the grant.

7. Or the Parcel will be forwarded to any place nearest to the Manager's residence to which there is a mode of conveyance. In the latter case the Manager must point out the precise mode of conveyance by which the Parcel is to be transmitted, and he must also defray the cost of carriage.

8. When Parcels are forwarded to the Depot of a District it is *not* the duty of the Inspector to transmit the Parcel to the Manager's residence or to the School.

9. The Manager is required to send to the Depot on the day appointed by the Inspector for delivery of Parcels, a messenger who must present the order on the Inspector, with which the Manager will be furnished, and which order the Inspectors are required to transmit to this Office as a proof of the delivery of the Parcels.

No. 10. INSTRUCTIONS for making Applications for Salary and Books.

Education Office.

SIR,—We have to acknowledge the receipt of your Letter requesting Aid towards the establishment of a National School.

For the sake of uniformity, and to facilitate official reference, we enclose two blank Forms, upon which we are to request you will make your application, forwarding to us *duplicate* copies of it.

We are to observe, that the following are the principal heads of information which it is desirable all applications should contain:

1. The Name of the School.—2. The situation as to County, Parish, Townland, and Barony.—3. Name of the nearest Post Town, and in which direction.—4. Description and condition of the House.—5. Number of School-rooms and dimensions of each.—6. Condition, description, and quantity of Furniture.—7. Names and Ages of Teacher or Teachers.—8. Average daily attendance of Children, Males and Females.—9. The School hours.—10. Arrangement, and time for Religious Instruction.—11. The Books used, (if those of the National Board, which of them).—12. Arrangement for admission of Visitors.—13. The Management of the School; if under an Individual, his name and address; If under a Committee, by whom elected.—14. Name and address of Correspondent. *All applications must be signed by the parties making them; and it is particularly requested that their religious denomination (distinguishing the Clergy from the Laity) may be stated.*

In supplying the foregoing "heads of information," the Commissioners do not mean to prescribe any form of application from which you are not to deviate—they propose them merely for your assistance; and you will please to bear in mind, that it is most desirable the rules by which the School is governed should be distinctly set forth, in order that the Commissioners may be enabled to come to a just decision upon the merits of your application.

In order that you may be fully aware what extent of aid the Commissioners can give, we are to inform you, that, in consequence of the increased demands upon their funds for payment of Teachers' Salaries, the Commissioners have been compelled to limit their grants to *Salaries and Books*, except where they may see fit to grant aid for the building of School-houses, in which case the Premises must be vested in them in their Corporate capacity.

The Commissioners do not make grants for the repairs of School-houses, and their grants for Furniture are confined exclusively to *vested* Schools; your application, therefore, will not be favourably entertained unless the *School-house be in good repair, and provided with a sufficient quantity of suitable Furniture; a competent Teacher or Teachers must be appointed, and the School be in operation, before the application can be*

considered. You must also be prepared to show from a record kept in the School what has been the AVERAGE ATTENDANCE OF SCHOLARS.

Should your application be granted, the Salary will be rated according to the annexed statement of the regulations adopted by the Commissioners for the classification and remuneration of Teachers.

A supply of National School Books, proportioned to the number of Children in attendance, will be granted. The Funds of the Commissioners will not enable them to give a Free Stock sufficiently large for the entire wants of the School. It will consist chiefly of Books and Lessons suited to the junior classes, viz.:—Spelling and Reading Tablets, First, Second, and Third Books, Grammars, Arithmetics, Copy Lines, and Arithmetical Tablets, also a Register and Report Book. The more advanced Lesson Books, Maps, Slates, Pencils, and Stationery, *which you are expected to purchase,* can only be granted on payment of the reduced prices.

You will also observe, that the Aid will not be *continued* unless you keep the School-house and Furniture in a proper state of repair, the Commissioners being prevented, by the rules laid down for their guidance, from allocating any portion of the Parliamentary Grant towards the *repairs* of any School-houses except those that are vested in themselves.

As soon as you forward your application to us, *in duplicate,* upon the blank sheets herewith sent, we shall direct the District Inspector to appoint a convenient time to wait upon you for the purpose of inquiring into all the circumstances of the case, and procuring such further information as the Commissioners may require.

In conclusion, we are to inform you, that it is the rule of the Commissioners to consider each application in the order of the date at which it is received in this Office.

We are, Sir,

Your obedient Servants,

MAURICE CROSS,
JAMES KELLY, } Secretaries.

No. 11. INSTRUCTIONS for making application for Aid towards Building National School-houses.

Education Office.

SIR,—We have to acknowledge the receipt of your Letter requesting Aid towards the Building of a National School.

For the sake of uniformity, and to facilitate official reference, we enclose two Blank Forms, upon which we are to request you will make your application, forwarding to us *duplicate* copies of it.

We are to observe, that the following are the principal heads of information which it is necessary all applications should contain:

1. The name by which the proposed School is to be designated.—2. The situation of the proposed site, as to County, Parish, Townland, and Barony.—3. Name and profession of the person making a Lease of the site, under what title he makes the Lease.—4. The length of Tenure.—5. The Rent (if any).—6. The expected attendance of Children, Male and Female—Whether one or two School-rooms will be required.—7. Name and address of Correspondent.

All applications must be signed by the parties making them; and it is

APPENDIX A.

V.-Practical Rules for Teachers.

particularly requested that their religious denominations (distinguishing the Clergy from the Laity) may be stated.

In supplying the foregoing "heads of information," the Commissioners do not mean to prescribe any *form of application* from which you are not to deviate—they propose them merely for your assistance, and to facilitate the Inspector of the District in making the necessary inquiries.

As soon as you forward to us your application, *in duplicate*, upon the blank sheets herewith sent, we shall direct the Inspector of the District to appoint a convenient time to wait upon you for the purpose of inquiring into all the circumstances of the case, and procuring such further information as the Commissioners may require; upon the receipt of his report, the application will be considered in the order of its date.

We beg to state, for your further information, that where the Commissioners make a grant for the erection of a School-house, they will require the Premises to be vested in them in their Corporate capacity, for the purpose of National Education, before the works are commenced; and no Grant will be made unless a satisfactory Lease for sixty years, or longer, can be given, or for at least three lives, or thirty-one years.

Although the Commissioners do not absolutely refuse aid towards the erection of School-houses on ground connected with a place of Worship, yet they much prefer having them erected on ground which is not so connected, where it can be obtained; they therefore expect that, before Church, Chapel, or Meeting-house ground be adopted as the site of a School-house, *strict* inquiry be made whether another convenient site can be obtained, and that the result shall be stated to them.

The cost of the house, including privies, is determined by the number of Children which it is intended to accommodate, allowing six square feet per Child. The Commissioners consider a sum not exceeding £1 for each, to be sufficient for the purpose, of which they will contribute two-thirds; the remaining one-third must be locally raised: for example, a School-house capable of accommodating one hundred Children should contain an area of six hundred square feet. The expense of erecting such a Building, including privies, should not exceed £100. Of this sum, the proportion granted by the Commissioners is £66 13*s.* 4*d.*, being the two-thirds.

The quantity of furniture is also determined by the number of Children, and one-third of the whole cost must, in like manner, be locally raised.

Where a Grant is made for building a School-house, the applicants are bound to a strict observance of the Rules of the Board, a copy of which is transmitted herewith.

We are also to acquaint you, that the Commissioners, being desirous of complying with the increasing claims made upon them for assistance, will have no objection to entertain applications for *Salary and Books*, wherever *temporary* Schools can be established, until the new Building, should a Grant be made for the purpose, can be opened for the reception of the Pupils.

Should you consider it desirable to avail yourself of such assistance, you are requested to intimate it to us without loss of time, in order that the necessary forms of application may be forwarded to you.

The conditions upon which Salary and Books will be awarded are these:—That the School-house be in good repair; that it be provided with suitable Furniture; that a competent Teacher or Teachers be

appointed, and the School in operation attended by a sufficient number of Children.

You are requested to observe that the Commissioners are prevented by the rules laid down for their guidance, from allocating any portion of the Parliamentary Grant towards the *repairs* of any School-houses, except those that are vested in themselves.

We are desired to state for your further information, that the rule of the Commissioners is to restrict their aid EXCLUSIVELY TO SALARY AND BOOKS, except to Schools towards the erection of which they may consider it proper to contribute, and which, as already stated, must be vested in them for the purposes of National Education.

We are, Sir,

Your obedient Servants,

MAURICE CROSS, JAMES KELLY, } Secretaries.

1. TWELVE PRACTICAL RULES for the TEACHERS of NATIONAL SCHOOLS.

1. The Teachers of National Schools are required—To keep at least one copy of the GENERAL LESSON suspended conspicuously in the School-room, and to inculcate the principles contained in it on the minds of their Pupils.

2. To exclude from the School, except at the hours set apart for Religious Instruction, all Catechisms and Books inculcating peculiar religious opinions.

3. To avoid fairs, markets, and meetings—but above all, POLITICAL meetings of every kind; to abstain from controversy; and to do nothing either in or out of School which might have a tendency to confine it to any one denomination of Children.

4. To keep the Register, Report Book, and Class Rolls accurately, neatly, and according to the precise form prescribed by the Board; and to enter or mark in the two latter, before *noon* each day, the number of Children in actual attendance.

5. To classify the Children according to the National School Books; to study those Books themselves; and to teach according to the improved method, as pointed out in their several prefaces.

6. To observe themselves, and to impress upon the minds of their Pupils, the great rule of regularity and order—A TIME AND A PLACE FOR EVERY THING, AND EVERY THING IN ITS PROPER TIME AND PLACE.

7. To promote, both by precept and example, CLEANLINESS NEATNESS, and DECENCY. To effect this the Teachers should set an example of cleanliness and neatness in their own person, and in the state and general appearance of their Schools. They should also satisfy themselves, by personal inspection every morning, that the Children have had their hands and faces washed, their hair combed, and clothes cleaned, and, when necessary, mended. The School apartments, too, should be swept and dusted every *evening*, and white-washed at least once a year.

8. To pay the strictest attention to the morals and general conduct of their Pupils and to omit no opportunity of inculcating the principles of TRUTH and HONESTY: the duties of respect to superiors and obedience to all persons placed in authority over them.

9. To evince a regard for the improvement and general welfare of

their Pupils, to treat them with kindness, combined with firmness, and to aim at governing them by their affections and reason, rather than by harshness and severity.

10. To cultivate kindly and affectionate feelings among their Pupils; to discountenance quarrelling, cruelty to animals, and every approach to vice.

11. To record in the Report Book of the School the weekly receipts of School fees, and the amount of all grants made by the Board, as well as the purposes for which they were made, whether in the way of Premiums, Salaries to Teachers, payments to Monitors or Workmistresses, also School requisites, whether Free Stock or purchased at half price.

12. To take strict care of the Free Stock of Books granted by the Board; and to endeavour to keep the School constantly supplied with National School Books and requisites, for sale to the Children, at the reduced prices charged by the Commissioners; also to preserve the invoices for the information of the Inspectors; and whenever requisites (whether Free Stock or purchased) arrive without an invoice, to apply to the manager to whom it is transmitted when the parcel is sent from this office.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

General Rules and Regulations as to the Appointment, Examination, and Classification of Teachers and Monitors, &c., &c.

1. Appointment and Classification of Teachers.

1. The appointment of Teachers rests with the Local Patrons and Committees of Schools, but the Commissioners are to be satisfied with the fitness of each, both as to character and general qualification; and the Local Patrons have the power of removing the Teachers of their own authority. The Teacher should be a person of Christian sentiment, of calm temper, and discretion; he should be imbued with a spirit of peace, of obedience to the law, and of loyalty to his Sovereign; he should not only possess the art of communicating knowledge, but be capable of moulding the mind of youth, and of giving to the power which education confers a useful direction. These are the qualities for which Patrons of Schools, when making choice of Teachers, should anxiously look. They are those which the Commissioners are anxious to find, to encourage, and to reward.

2. The Commissioners have provided a Normal Establishment in Marlborough-street, Dublin, for training Teachers, and educating persons who are intended to undertake the charge of Schools; and they do not sanction the appointment of a Teacher to any School, unless he shall have been previously trained at the Normal Establishment, or shall have been pronounced duly qualified by the Inspector of the District in which the School is situated.

3. Teachers selected by the Commissioners for admission to the Normal Establishment, must produce a Certificate of good character from the officiating Clergyman of the communion to which they belong; and must pass through an examination in the Books published by the Commissioners. They are to be boarded and lodged at the establishments provided by the Board for the purpose, in Dublin, and at Glasnevin, in the immediate neighbourhood of Dublin, to which latter an Agricu

tural Department is attached. They are to receive Religious Instruction from their respective Pastors, who attend on Tuesdays at the Normal Establishment; and on Sundays they are required to attend their respective places of Worship; and a vigilant superintendence is at all times exercised over their moral conduct.

4. They are to attend upon five days in the week at the Training and Model Schools, where lectures are delivered on different branches of knowledge, and where they are practised in the art of Teaching. They are to receive instruction in Agriculture daily, and they attend on Saturdays on the Farm, at Glasnevin, which is conducted under the direction of the Commissioners, and where they see theory reduced to practice. They undergo a final examination at the close of their course, and each will then receive a certificate according to his deserts. The course of Training at present occupies a period of four months and a-half, and for a considerable time previous to their being summoned, they are required to prepare themselves for the course.

5. Teachers of Schools unconnected with the National Board, if properly recommended, are also admitted to attend the Normal Establishment, as day pupils, without any charge for tuition; but such persons maintain themselves at their own expense.

6. All Teachers, appointed after the 1st of April, 1851, who have not been previously classed by the Professors or by a Board of Inspectors, shall be paid as Probationers, until they be examined at the first General or Special Examination held in the district subsequently to their appointment. Those who then obtain classification, will be paid from the commencement of their service under the Board according to the rate of salary attached to their class.

7. This rule will not extend to any teachers who, when summoned, shall fail, from any cause whatever, to present themselves for examination.

8. All teachers who have been unsuccessful at their first examination, and who may be retained on trial, shall receive the salary of the class to which they may be promoted at any subsequent examination, from the commencement of the quarter in which their classification shall be determined.

9. Teachers who after their first examination have been retained on trial as Probationers, if not recommended for promotion by the Head or District Inspectors, at the next ensuing examination, or by the Professors after training, cannot be continued in the service of the Board; but their salaries will be paid for one month subsequent to the date of dismissal.

10. All newly appointed Teachers who, after examination by the Inspectors, may be found wholy unqualified, shall be paid salary up to the close of the month in which Commissioners refuse to sanction their appointment.

11. The Pupil Teachers of District Model Schools, on taking charge of National Schools after the completion of their course of training, shall rank as Third Class Teachers (provided they be deemed qualified for that class by the Head Inspector) until they shall have been classed at the first General or Special Examination held after their appointment in the district in which their Schools are situated, from which date they will be paid according to their classification.

12. All Teachers must remain at least one year in a lower division of any class before they are eligible for examination with a view to promotion to a higher division; and they must remain two years in a class before they can become candidates for a higher class. These conditions, however, being fulfilled, Teachers of superior attainments

may be advanced from any division of one class to any division of another after their first classification (except untrained Teachers, who cannot be placed in the First Class) without requiring them to pass through the intermediate divisions.

13. This regulation does not apply to Teachers who may be promoted on the recommendation of the Professors at the termination of their course of training.

14. All Teachers, except Probationers, recommended for promotion after a course of training, will receive the increase of salary from the commencement of the quarter in which they are classed by the Professors.

15. No Teachers can be raised to any division of the First Class, unless they shall have been trained at the Normal School of the Commissioners, and recommended for promotion by the Professors at the end of the course of training, or by a Board of Inspectors.

16. The Commissioners have determined upon a course of study for each class, in which the Teachers are to be examined as a test of their fitness for promotion; but their general conduct, the condition of their respective Schools, their method of conducting them, and the daily average attendance of pupils, will also be taken into consideration.

17. No Teacher will be admitted to examination, with a view to promotion, on whose School a decidedly unfavourable report has been made by the District Inspector within the previous year.

18. Teachers will not be eligible for promotion, unless, in addition to satisfactory answering in the course prescribed for the Class to which they aspire, it appears from the reports of their respective District Inspectors, that their Schools are properly organized and well conducted: that adequate exertions have been made by them to keep up a sufficient average attendance; that their junior classes are carefully taught, and that a fair proportion of the pupils of the higher classes, besides being proficients in the ordinary branches of Reading, Spelling, and Writing, are possessed of a respectable amount of knowledge in, at least, Grammar, Geography, and Arithmetic. In Female Schools it will be further requisite that instruction in plain Needlework, including sewing, knitting, and cutting out, be given to all girls capable of receiving it, and that they exhibit a due proficiency in this department.

19. It must appear from the reports of their Inspectors, that their School Accounts have been regularly and correctly kept, that their Schools and School premises have been preserved with neatness and order, and that cleanliness in person and habits has been enforced on the children attending them.

20. Satisfactory Certificates of conduct and character will be required of all Candidates.

21 Every National Teacher will be furnished, on application to the District Inspector, with a copy of the programme of the course of study above referred to, in which is stated the minimum of proficiency required for each Class.

22. The Head and District Inspectors are authorized to recommend that such Teachers be removed, fined, or lowered in their classification as may have conducted themselves improperly, or in whose Schools the attendance has considerably decreased, or who, from any other cause, may seem to these officers to merit such punishment.

23. Salaries are granted by the Commissioners to the Teachers *individually*. No new Teacher, therefore, is to receive a Salary from them unless they have first approved of him; the amount is regulated by the Class in which he may be placed.

The Female Teachers will not be required to be prepared on the subjects marked with an asterisk.

Candidates for promotion must be prepared for examination in any of the subjects prescribed for the Class or Classes below that to which they desire to be raised.

General Conditions.

The minimum of proficiency required of the Teachers of each Class is stated in the preceding programme.

All Teachers must remain at least one year in a lower division of any Class, before they are eligible for promotion to a higher division of the same; and they must remain two years in a lower Class before they are eligible for promotion to a higher Class.

This regulation does not apply to Probationary Teachers, nor to Teachers who may be promoted on the recommendation of the Professors at the termination of the course of training.

None but Teachers trained at the Normal School of the Commissioners are eligible for promotion to *any division of the First Class*, and only upon the recommendation of the Professors, or of a Board of Inspectors.

Examinations are to be held, at specified times, by the Inspectors, with the view of promoting meritorious Teachers; while those who may have conducted themselves improperly, or in whose Schools the attendance has considerably decreased, will be liable to be depressed.

No Teacher will be admitted to examination, with a view to promotion, on whose School a decidedly unfavourable report has been made by the District Inspector within the previous year.

Teachers will not be eligible for promotion, unless, in addition to satisfactory answering in the course prescribed for the Class to which they aspire, it appears from the reports of their respective District Inspectors that their Schools are properly organized and well conducted; that adequate exertions have been made by them to keep up a sufficient average attendance; that their junior Classes are carefully taught, and that a fair proportion of the Pupils of the higher Classes, besides being proficients in the ordinary branches of Reading, Spelling, and Writing, are possessed of a respectable amount of knowledge in, at least, Grammar, Geography, and Arithmetic. In Female Schools it will be further requisite that instruction in Plain Needlework, including sewing, knitting, and cutting out, be given to all girls capable of receiving it, and that they exhibit a due proficiency in this department.

It must also appear, from the reports of their Inspectors, that their School Accounts have been regularly and correctly kept, that their Schools and School premises have been preserved with neatness and order, and that cleanliness in person and habits has been enforced on the children attending them.

None can be appointed as Assistant Teachers whose qualifications are not equal to those required of Probationers.

Satisfactory certificates of character and conduct will be required of all Candidates.

Appendix A.

VI. Rules and Regulations as to Appointment, Examination, and Classification of Teachers, Monitors, &c., &c.

3. Examination of Teachers.

General Regulations.

I. It is intended that a General Examination of the Teachers shall take place every Fifth Year. (The first General Examination took place in 1848 for Male Teachers, and in 1849 for Female Teachers.)

II. That a Special Examination shall be held in each of the intervening years.

III. That at these Special Examinations there will be required to attend—

1st.—All Candidates for Promotion.

2nd.—All Probationers.

3rd.—Teachers who may have been absent from the Examination to which they had been previously summoned.

4th.—Those whose answering at such previous Examination may have been unsatisfactory.

5th.—Those whom the District Inspector may think proper for special reasons to summon.

IV. Trained Teachers, except at their own request, and with the sanction of the District Inspector, will not be required to attend any Examination that may be held during the three years subsequent to the date of their classification by the Professors at the expiration of the course of training.

V. National Teachers, 45 years of age and upwards, who have served under the Board for a period of not less than 15 years, or Teachers who have attained 50 years of age, and served not less than 10 years, will not be required to attend any Examination, provided they have been already examined and classed by the Professors, or a Board of Inspectors.

VI. As the Commissioners have decided that *Teachers must remain Two Years in a lower Class before they are eligible for promotion to a higher*, the Candidates for examination with a view to promotion, must, each year, be restricted to those who come under this condition. With this restriction, however, it is to be understood, that deserving Teachers may at the second and all subsequent examinations, as well as at the first, be promoted from any division of one class to any division of a higher (except untrained Teachers, who cannot be placed in the First Class), without requiring them to pass through intermediate divisions.

VII. Teachers who may have absented themselves, without satisfactory reason assigned, from the examinations of previous years, will be liable to be dismissed should they not present themselves when again summoned.

All Teachers also who may be *specially* summoned, and who shall be absent without a sufficient reason, will be liable to be fined or depressed.

VIII. The written part of the Examination for Male Teachers, which will occupy one whole day, will be held by the District Inspector, in Easter Week, at such central point in his District as he may think proper to fix upon.

IX. The period for the Oral Examination of the Male Teachers, and for the Examination of the Female Teachers, will be afterwards appointed; these Examinations to be conducted by a Head Inspector, aided by the Inspector of the District.

X. It is required that all those who may seek to become Candidates for promotion within the limits already laid down, shall intimate to the District Inspector, before the 15th March, that such is their wish, and he will inform them whether they may present themselves for Examination.

Agricultural Schools.

1. Masters of Agricultural Model Schools who are competent to conduct both the Literary and Agricultural Departments are, whatever may be their classification, to receive £10 per annum, in addition to the salary of the class in which they may be placed; and provided their income from the Board, with this addition, should fall short of £30 per annum, the difference will be granted to them, so that, in all cases, such Teachers shall have secured to them for their *combined* services a salary of £30 a-year at least.

2. Masters of National Schools, having a small portion of land annexed to their Schools, consisting of from two to three acres, for the purpose of affording Agricultural instruction, will receive £5 per annum, in addition to the salary of their class, provided they are competent to conduct both the Literary and Agricultural Departments, and that the Commissioners shall have previously approved of Agriculture being taught in the School.

3. In cases where a sufficient number of acres of land are attached to Workhouse Schools in connexion with the National Board of Education, the Commissioners award annual gratuities, not exceeding £15 to each, to such of the Agricultural Teachers who shall be recommended as deserving of them by the Agricultural Inspector.

Assistant Teachers.

Salary not to exceed £15 for Males, and £13 for Females.

1. The Commissioners will not grant a higher rate of Salary than the above to an Assistant Teacher, even if classed; nor will they consider

any application for a grant of Salary to an Assistant in any School in which there is not a daily average attendance of at least seventy-five Pupils; and in Schools whose average attendance does not rise considerably above this, and which are already provided with Paid Monitors, Assistants cannot be recognized by the Board.

2. When Applications for an Assistant are laid before the Commissioners, they will determine whether it will not be more advisable to appoint a Paid Monitor.

3. Assistant Teachers will not be sanctioned whose qualifications are not at least equal to those required of Probationers.

Workmistresses.

Salary, £8 per annum.

1. The Commissioners will not grant Salary to Workmistresses unless there be a sufficient daily average attendance of Pupils, and the Commissioners require that at least two hours each day be devoted by them to instruction in this branch.

2. In Schools attended by Female Children only, under the care of a Female Teacher, such Teacher must be competent not only to conduct the Literary Department, but also to give instruction in Needlework.

Schools in Connexion with Religious Bodies.

Where the daily average attendance amounts to 30 above the 100, Salary for 50 will be allowed; and when it amounts to 75 above the 100, Salary will be allowed for an additional 100.

2. As the amount of Salary will in all cases depend upon the average attendance of Pupils, Managers are to be prepared for augmentation or diminution accordingly.

Industrial Schools.

1. In National Schools where embroidery and other high branches of Needlework are taught, the amount of Salary granted for giving such instruction is regulated by the nature of the work, and the number of Pupils engaged in it.

Paid Monitors.

Qualifications of Candidates.

I. *Appointment.*—The selection should be made, as far as possible, from those who have shown a taste for teaching.

II. The Candidates should not be under fourteen nor over sixteen years of age. They must be of a sound and healthy constitution, and free from any physical defect likely to impair their efficiency as Teachers.

III. The School to which the Candidate belongs should exhibit a tolerable degree of efficiency, should have a sufficient average attendance to require a Paid Monitor, and the Teacher should be qualified to give instruction in the prescribed course.

IV. The Candidates will be required :—

1st. *Reading.*—To read the Third Book fluently, and to answer, with readiness, the explanatory questions arising from Lessons selected in this and the earlier Books.

Salaries.

For the First Year, . . .	£4.
For the Second Year, . . .	£5.
For the Third Year, . . .	£7.
For the Fourth Year, . .	£8.

1. The number of Paid Monitors is limited to eight males and four females in each District, selected from among the best Pupils in the National Schools, and appointed upon the recommendation of the District Inspectors, subject to the approval of the Commissioners.

2. This appointment cannot be held for a longer period than FOUR YEARS, at the expiration of which the salary will be discontinued.

3. The Salary may, however, be withdrawn at any time, should want of diligence, efficiency, or good conduct on the part of the Monitor, or any other circumstance, render such a course desirable.

4. The District Inspector selects the Schools to which Paid Monitors should be appointed; and when vacancies occur, whether before or after the expiration of four years, it does not necessarily follow that a successor shall be appointed in the same Schools.

5. When all the District Model Schools are established, Candidates for the office of Paid Monitor must undergo a Public Examination by the Inspectors, in a prescribed course, to be held in those Schools.

6. The selection will be made, as far as possible, from those who have shown aptitude for teaching.

7. The Candidates should not be under fourteen nor over sixteen years of age. They must be of a sound and healthy constitution, and free from any physical defect likely to impair their efficiency as Teachers.

8. The School to which the Candidate belongs should exhibit a tolerable degree of efficiency, should have a sufficient average attendance to require a Paid Monitor, and the Teacher should be qualified to give instruction in the prescribed course.

9. The Paid Monitors' Programme can be obtained on application to the District Inspector.

10. Paid Monitors who have completed the four years of their course in a satisfactory manner, are eligible, on examination by the Inspectors, for the situation of Assistant-Teacher, or of Pupil Teachers in District Model Schools.

Workhouse Schools.

Scale of Gratuities to Masters and Mistresses of Workhouse Schools.

1. The Commissioners of National Education have resolved, with the concurrence of the Poor Law Commissioners, to award annual gratuities to a certain number (forty males and forty females) of the Teachers of the Workhouse Schools, in connexion with the National Board, who shall be recommended by the District Inspectors.

2. The gratuities are divided into two classes:—

For Male Teachers,	First Class, . .	Twenty at £6 a-year each.
	Second Class, .	Twenty at £4 a-year each.
For Female Teachers,	First Class, . .	Twenty at £5 a-year each.
	Second Class, .	Twenty at £3 a-year each.

3. The payment will be made half-yearly, with the usual issue of Salary to Teachers of National Schools, after the 31st March, and 30th September, in each year.

4. It is to be understood that such gratuities are given in *addition* to the Salaries paid to the Teachers of Workhouse Schools, under the provisions of the Poor Law Act.

5. No Teacher is precluded from receiving the gratuity two or more years in succession, if recommended by the District Inspector as deserving of it; but a Teacher having received one year's gratuity, is not thereby *entitled* to a continuance of it.

Premiums to Teachers for Order, Neatness, &c.

Scale of Premiums to Masters and Mistresses of National Schools who are most distinguished by the Order, Neatness, and Cleanliness observable in themselves, their Pupils, and in the School-houses.

1. The sum of £22 10*s.* will be allocated to each of the School Districts, and divided into Thirteen Premiums.

One of £4, ...	£4
Two of £3, ...	£6
Five of £1 10*s.*, . . .	£7 10*s.*
Five of £1, ...	£5

2. These Premiums will be awarded annually on the recommendation of the District Inspector, and paid at the end of the year.

3. No distinction is made between Vested and Non-Vested Schools.

4. No Teacher is eligible for these Premiums for more than two years in succession.

5. These Premiums will be awarded without reference to the class in which the Teachers may be placed; but none will be deemed eligible to receive such Premiums against whom there is any well-founded charge of neglect in the performance of their duties, of impropriety in their conduct, or whose Schools are not conducted in a satisfactory manner.

VII.

Notice to Managers of National Schools relative to the Payment of Teachers' Salaries.

The Managers of National Schools are particularly requested to attend to the following Instructions respecting the payment of Salaries to Teachers, as the Commissioners for Auditing the Public Accounts will not, in future, allow any documents to pass as Vouchers from this Office which are not in compliance with these Rules:—

1. Every Receipt should be signed by the Manager, and by the Teacher entitled to receive the amount of Salary therein specified.

2. Whenever a Manager advances money to a Teacher on account of the Salary payable by the Commissioners of National Education to such Teacher, he should *take a Receipt* for the same on a Stamp, in order to have a proper Voucher to produce to this Office in case the Teacher die, or leave the School before the expiration of the Quarter.

3. If a Teacher die to whom any Salary is due by the Commissioners, the amount will be paid to the representatives or next-of-kin. The relationship of the party paid must, however, be stated in the Receipt; and if such party cannot write, his or her mark will be received as signature, if witnessed by a third person.

4. If a Teacher leave a National School, and authorize the Manager, or some other person, to receive the Salary due from this Board, such authority must be given in writing, or the amount will not be paid. A Manager can always protect himself by attending to Rule No. 2.

5. As the Commissioners of Audit do not consider a Certificate of payment coming from the person who makes such payment a proper Document, no Manager's Certificate can in future be taken as a Voucher.

6. If Receipts which are sent from this Office for Signature, be not returned within a Month, the amount of Salary to which they refer will be cancelled, and remain over until the next quarterly payment becomes due. This rule will in future be strictly adhered to, in consequence of the inconvenience arising from such delays.

7. The Commissioners do not pay Salary for a broken period of a month, nor will they in future pay any Teacher a Month's Salary unless he shall have been in charge of the School for at least two-thirds of the month. Managers should, therefore, take care not to allow Teachers to leave their Schools before the last week of the month.

No. 1.—Scale of Premiums to the Masters and Mistresses of National Schools who are most distinguished by the order, neatness, and cleanliness observable in themselves, their pupils, and in the School-houses.

The sum of £22 10s. to be allocated to each of the School Districts, to be divided into Thirteen Premiums:—

One of	£4 0 0	Five of £1 10s. each,	£7 10 0
Two of £3 each,	6 0 0	Five of £1 each,	5 0 0

These Premiums are to be awarded annually on the recommendation of the District Inspector, and paid at the end of the year.
